

Section 1: Identification of the substance/mixture and of the company/undertaking**1.1 Product Identifier**

BSLP Refractometer Calibration Fluid

1.2 Relevant identified uses of the substance or mixture and uses advised against

Uses: Refractometer calibration

1.3 Details of the supplier of the safety data sheet

Supplier: Bellingham + Stanley Ltd., Longfield Road, Tunbridge Wells, KENT. TN2 3EY. UK

Telephone: +44 (0) 1892 500400 Fax: +44 (0) 1892 543115 Email: lab.bs.uk@xyleminc.com

1.4 Emergency telephone number For Hazardous Material Chemical Emergencies (Spill, Leak, Fire, Exposure, or Accident)

Call CHEMTREC Day or Night: Within USA and Canada 1-800-424-9300 Outside USA and Canada: +1 703-527-3887 (collect calls accepted)

REACH No.: A registration number is not available for this substance as the substance or its uses are exempted from registration, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline.**Section 2: Hazards identification****2.1 Classification of substance or mixture**

Not hazardous according to Regulation (EC) No. 1272/2008

Not dangerous according to 1999/45/EC

2.2 Label elements None needed**2.3 Other Hazards** None**Section 3: Composition/Information on ingredients****3.1 Substances**

Organic Liquid

Not categorised as Hazardous according to (EC) 1272/2008

Section 4: First aid measures**4.1 Description of first aid measures**

When in doubt or if symptoms are observed, get medical advice. If unconscious place in recovery position and seek medical advice. Never give anything by mouth to an unconscious person or a person with cramps. Change contaminated, saturated clothing. Do not leave affected person unattended.

Inhalation: Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration. In case of respiratory tract irritation, consult a physician.

Skin contact: After contact with skin, wash immediately with plenty of water and soap. Remove contaminated, saturated clothing immediately. In case of skin reactions, consult a physician.

Eye Contact: In case of contact with eyes flush immediately with plenty of flowing water for 10 to 15 minutes holding eyelids apart and consult a physician. Protect uninjured eye. Remove contact lenses, if present and easy to do. Continue rinsing.

Ingestion: If accidentally swallowed rinse the mouth with plenty of water (only if the person is conscious) and obtain immediate medical attention. Do not induce vomiting. Give nothing to eat or drink.

4.2 Most important symptoms and effects both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2.2) and/or in section 11

4.3 Indication of any immediate medical attention and special treatment needed

No data available

Section 5: Firefighting measures**5.1 Extinguishing Media**

Suitable: The product itself does not burn. Co-ordinate fire-fighting measures to the fire surroundings.

Unsuitable: no restriction

5.2 Special hazards arising from the substance or mixture

In case of fire may be liberated: Pyrolysis products, toxic

5.3 Advice for firefighters

Do not fight fire when fire reaches explosives. Wear self-contained breathing apparatus if necessary.

Do not allow run-off from fire-fighting to enter drains or water courses. Do not inhale explosion and combustion gases. Use caution when applying carbon dioxide in confined spaces, carbon dioxide can displace oxygen. Use water spray jet to protect personnel and to cool endangered containers.

Section 6: Accidental release measures**6.1 Personal precautions, protective equipment and emergency procedures**

Avoid generation of dust.

Do not breathe dust/fume/gas/mist/vapours/spray. Provide adequate ventilation. Use personal protective equipment (see section 8).

6.2 Environmental precautions

Do not allow to enter into surface water or drains.

6.3 Methods and materials for containment and cleaning up

Spilled product must never be returned to the original container for recycling. Collect in closed and suitable containers for disposal. Clear spills immediately.

6.4 Reference to other sections

See sections 8 and 13 for personal protection and disposal information

Section 7: Handling and storage**7.1 Precautions for safe handling**

Wash hands and face thoroughly after working with material. Contaminated clothing should be removed and washed before re-use. Avoid inhalation, skin and eye contact.

7.2 Conditions for safe storage, including any incompatibilities

Storage temperature 15-25°C. Keep container tightly closed in a cool, well-ventilated place.

7.3 Specific end use(s)

Apply refractometer samples by pipette. Refer to certification accompanying samples.

Section 8: Exposure controls/personal protection**8.1 Control parameters**

None of the components have assigned exposure limits

8.2 Exposure Controls

Technical measures and the application of suitable work processes have priority over personal protection equipment. If handled uncovered, arrangements with local exhaust ventilation have to be used.

Wash hands before breaks and after work. Avoid contact with skin and eyes. When using do not eat, drink or smoke. Provide eye shower and label its location conspicuously.

Personal Protective Equipment

As appropriate to the situation and the quantity handled

Eyes/Face: Safety glasses (EN166)**Gloves:** Nitrile rubber, min. thickness 0.12mm, breakthrough time 480 min**Respirator:** Usually not necessary**Ventilation:** General

Section 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

| | | | |
|---|---|---|-------------------------------|
| (a) Appearance: | Colourless to slightly yellowish liquid | (k) Vapour pressure: | No data available |
| (b) Odour: | Almost odourless | (l) Vapour density: | No data available |
| (c) Odour Threshold: | No data available | (m) Relative density: | 0.86 g/cm ³ (20°C) |
| (d) pH: | No data available | (n) Solubility(ies): | No data available |
| (e) Melting point/freezing point: | No data available | (o) Partition coefficient: n-octanol/water: | No data available |
| (f) Initial boiling point and boiling range: | 300 to 450°C | (p) Auto-ignition temperature: | >300°C |
| (g) Flash point: | 195°C | (q) Decomposition temperature: | No data available |
| (h) Evaporation rate: | No data available | (r) Viscosity: | 25 to 80 mPa*s (20°C) |
| (i) Flammability (solid, gas): | No data available | (s) Explosive properties: | Not applicable |
| (j) Upper/lower flammability or explosive limits: | No data available | (t) Oxidising properties: | Not applicable |

9.2 Other information

No data available

Section 10: Stability and reactivity

10.1 Reactivity

No data available

10.2 Chemical Stability

The product is chemically stable under standard ambient conditions (room temperature)

10.3 Possibility of hazardous reactions

No data available

10.4 Conditions to avoid

No data available

10.5 Incompatible materials

No data available

10.6 Hazardous decomposition products

No data available

Section 11: Toxicological information

11.1 Information on toxicological effects

| | | | |
|-----------------------|--------------------------------------|---------------------------|--|
| Eyes: | May cause temporary discomfort | STOT – single exposure: | Not relevant |
| Skin: | No adverse effects normally expected | STOT – repeated exposure: | Not relevant |
| Inhalation: | No adverse effects normally expected | Carcinogenicity: | No indication of human carcinogenicity |
| Ingestion: | No adverse effects normally expected | Mutagenicity: | No indications of human germ cell mutagenicity exist |
| Oral LD50 (rat): | >5000 mg/kg | Reproductive Toxicity: | No indications of human reproductive toxicity exist |
| Dermal LD50 (Rabbit): | >3000 mg/kg | Aspiration hazard | Not relevant |

Section 12: Ecological information

12.1 Toxicity

No data available

12.4 Mobility in soil

No data available

12.2 Persistence and degradability

No data available

12.5 Results of PBT and vPvB assessment

No data available

12.3 Bioaccumulative potential

No data available

12.6 Other adverse effects

No data available

Section 13: Disposal considerations

13.1 Waste treatment measures

Dispose of according to legislation. Consult the appropriate local waste disposal expert about waste disposal.

Waste code product: No data available

Section 14: Transport information

| | Land transport (ADR/RID) | Sea transport (IMDG) | Air transport (ICAO-TI / IATA-DGR) |
|--|-----------------------------|-------------------------|---------------------------------------|
| 14.1 UN number | n/a | n/a | n/a |
| 14.2 UN proper shipping name | Not dangerous | Not dangerous | Not dangerous |
| 14.3 Transport hazard class(es) | n/a | n/a | n/a |
| 14.4 Packing group | n/a | n/a | n/a |
| 14.5 Environmental hazards | No | No | n/a |
| 14.6 Special precautions for user | n/a | n/a | n/a |
| 14.7 Transport in bulk according to Annex II of MARPOL 73/78 and IBC code | | | |
| Not intended for transport in bulk | | | |

Section 15: Regulatory information

15.1 Safety health and environmental regulations/legislation specific for the substance or mixture

Water hazard class (WGK) 0

15.2 Chemical Safety Assessment

No data available

Section 16: Other information

Relevant R-, H- and EUH-phrases: Not applicable

Changes: Modification to comply with Regulation (EC) No. 1907/2006 (REACH)
